1. Enclosed is a copy of the debriefing notes of [redacted]. As you see paragraph 1c concerns itself with observations on the subject of maps. They, in line with our continued policy of full field support, are worthy of consideration.

2. [redacted] forwarded a copy of the MIS Polish base with the 1:100,000 coverage overprinted. This proved of inestimable value in assembling the questionnaire concerned with that nation. [redacted] 25X1A8a when shown this map, stated that such information overprinted (or drawn) lightly on the "measle" or installation map and on each of the transportation maps would be a marked aid at the post.

3. His requests would entail preparing eight copies with coverage given lightly. Two of these would have the red dots placed on and the others forwarded with no additional preparation. Two additional copies with the dots on a plain base and six blanks would be needed. Preparation and distribution would be as follows:

Preparation	2 MIS bases with coverage and dots
	6 MIS bases with coverage only
	2 MIS bases with dots only
	4 MIS bases (unmarked .12 version)
	16 Total
